

# SAY GOODBYE TO YOUR COSTLY PHONE BILLS

Levit8-CX  
Hosted PBX

**LEVIT8**

Raise the Bar.

Dramatically reduce your phone bills by routing calls with VOIP – while avoiding large upfront investment, management and maintenance costs of an onsite PBX phone system.

If you're looking to improve your customer service with a more efficient caller phone queue, give your staff increased mobility, or simply reduce costs, Levit8-CX is the phone system you've been waiting for!

### Achieving Unified Communications...

3CX allows you to replace your outdated on premise phone system, and unify all your communication channels – phone, video, instant message and more – via one convenient source: the internet.

This is all made possible by utilising "Levit8-CX" located in our private secure cloud environment hosting the award winning 3CX software. Our solution empowers you with a feature rich phone system that allows you to make use of cost effective VOIP technology while eliminating the need to purchase expensive PBX hardware, making it affordable for small, medium to corporate businesses Australia wide and globally. You'll not only impress your employees and colleagues with this seamless communication solution, but most importantly your customers.

Whether your staff are in Brisbane, Sydney, Melbourne, London or New York, empower them with the ability to conduct business from anywhere and on any device, including Apple iOS and Google Android.

**UNLIMITED VOIP CALLS**  
 SIP trunks available in 60 major countries  
 Powered by Levit8
